REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art of record fails to clearly teach or suggest the addition of previously prepared catalytic nanoparticles comprising a noble metal, to the water of a hot water system for reducing electrochemical corrosion potential. Contrastingly, the closest prior art creates catalytic nanoparticles in situ, and absent a noble metal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
